DSC 2022 EUROPE VR

DRIVING SIMULATION & VIRTUAL REALITY CONFERENCE & EXHIBITION

The DSC Conference gathers driving simulation specialists from the industrial and academic communities as well as commercial simulation providers. This 21st edition follows that of 2021, held in Munich, in a hybrid version with 300 participants (more than 200 on site) and 15+ exhibitors. Both physical and remote participants came from all around the world from about more than 20 different countries of Europe, America and Asia.

This year's edition will be held in Strasbourg from September 14th to 16th, 2022. Topics will include state of the art in driving simulation technology, research and developments, extended with progressively merging virtual reality (VR) developments. This year program will also give an enlarged place for simulation tools for autonomous and connected vehicles along with advanced driving assistance system (ADAS) applications. Human factors and motion rendering nevertheless will remain the now traditional axis of the conference.

You are welcome to the DSC 2022 Europe Conference organized by the Driving Simulation Association, Arts et Métiers Institute of Technology and the University of Gustave Eiffel, with the support of Renault, on September 14th-16th!
