**TECHVIZ**

**Virtual Reality merging 3D models with  
driving simulation for faster and more  
efficient developments**

Palais des Congrès et de la Musique, Strasbourg | France

**14-16 SEPTEMBER 2022**

## ABOUT TECHVIZ

- France-based editor of enterprise VR/AR visualization software since 2004

- Unique technology able to display in VR CAD data from more than 200 applications, without data conversion

- Team of 40 passionate experts, including 7 PhD in R&D

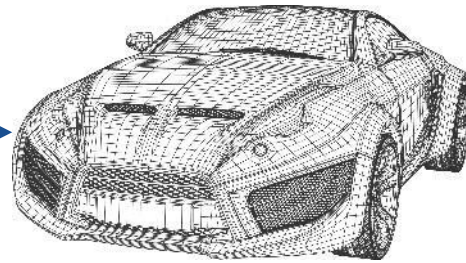

- Industry proven solution with 1 in 3 Fortune 500 industrial company trusting TechViz

# TEST DRIVE A FUTURE MODEL AT ANY STAGE

## CAD model

Directly integration of Catia, 3DExperience, TeamCenter, Autodesk VRED...

Design improvement  
in real time

## Driving Simulator

Direct integration of SCANeR and CarMaker

Merged in virtual scene for testing
